

## Searching for parcel information:

Using Text Search:

1. Select Parcel layer
2. Enter the: parcel number, owner name, or address
3. Results will be displayed in results list below.

Using Identify Features:

1. Select Parcels layer
2. Select a feature to draw on map. (A point is good to use for retrieving info for one parcel at a time)
3. Results will be displayed in results list. You can also click the parcel to see the popup box with info.
